Big Storage House
Is Being Erected

W. E. Lynne is erecting a storage
house 14 feet by 80 feet on the va-
cant lot on Cain street opposite the
court house. It is Mr. Lynne's inten-
tion to place a business house, 72x80
feet beside this building later in the
spring. The exact use of which this
store is to be placed has not been
made known but it is believed that
it is to be occupied by a general mer-
chandise or a grocery business.

LOVE MISSIVES
FOUND BY POLICE

Receiving Rooms of the
French House Scene
of the Tragedy

(Associated Press)

MADISON, Wis., Jan. 7.—One man
is dead and Miss Laura Palmer, cha-
perone of the French house is dying at
the Madison general hospital as the
result of a shooting tragedy, which
occurred early today in the re-
ceiving rooms of the French house.

Miss Palmer who is also an instruc-
tor in romance languages at the Uni-
versity of Wisconsin was shot once
through the arm and once through
the abdomen. The body of a man, was
found lying on the floor near Miss
Palmer a bullet wound in his temple.

Police announced the dead man's
name was F. X. Benard, 32 years old.
This was given by Miss Palmer.

As she was taken into the hospital
receiving room, she moaned.

"I helped him through school and
now..."

Mrs. Hannson, cook at the French
house, was the only one in the build-
ing aside from Miss Palmer and Ber-
nard. She heard three shots and ran
to the front of the house where she
found Miss Palmer in a semi-conscious
condition and Bernard's body with a
bullet wound in his temple.

Miss Palmer, whose home is in La-
Crosse, is about 24 years old.

Miss Palmer after being wounded
by two bullets which took effect in
her abdomen and in her right arm,
called for help and collapsed.

A letter which was addressed "Dear
X" and which was found in an in-
side pocket of Bernard's coat, which
lay on the davenport in the receiving
room was seized by police, and it is
said will play an important part in
the investigation of the tragedy. The
letter was signed "lovingly," but po-
lice declined to make known the
name with which the missive was
closed. They said however, that it
was written in a feminine hand and
said in effect that the writer was
not back at school after the holi-
days and that "everything is going
fine." The writer also informed
"Dear X" that she was catching eight
and nine o'clock classes this semes-
ter.

An inquest will be held to bring
out all the facts in the case, accord-
ing to District Attorney LaFollette.

In the pockets of Bernard's cloth-
ing also was found a snapshot of
Miss Palmer.

Work Progresses
On New Bungalow

Work is progressing rapidly on the
handsome new modern brick bungal-
ow being erected by J. W. Montgom-
ery on his newly purchased lot at
608 Oak street.

The residence is to contain five
rooms and a bath, with the latest
electrical equipment. The estimate
of W. S. Reeves and Son, contrac-
tors for the building, places the to-
tal cost of the home at \$5,000. It is
believed that the home will be com-
pleted and ready for occupancy by
the first of March.

Mr. Reeves stated that with the
completion of the Montgomery home,
he would move his staff of workmen
over to begin work on a like build-
ing for J. A. Thomason, at 608 Oak
street.

AVIATORS ESCAPE
WITHOUT SCRATCH
FROM WRECKAGE

(Associated Press)

DAYTON, O., Jan. 7.—Two em-
ployes of Wilbur Wright flying
field near here, were killed in-
stantly this morning when a
truck in which they were riding
was struck and demolished by an
airplane flying over the speed
course at the field.

The dead are: Leon C. Harness,
field inspector and Paul Long,
truck driver.

Lieutenant E. C. Barksdale, of
McCook Field was piloting the
ship. He was accompanied by
an observer. Both aviators es-
caped without a scratch.

Planes flying over the speed
course at the field usually fly
about ten feet from the ground.
The ship piloted by Barksdale is
believed to have descended below
that level, with the resulting fa-
tal crash.

The truck was traversing a
road at the western end of Wright
field when the accident occurred.

VIEWS EXCHANGED
ON DEBT PUZZLEFrench Minister Meets
Chancellor In Short
Conference Today

(Associated Press)

PARIS, Jan. 7.—A highly important
talk between finance minister Clem-
entel of France and Winston Churchill,
British chancellor of the exchequer,
held this afternoon in advance of
the opening of the finance minis-
ter's conference, served once more
to bring out the tendency of all
European debt discussion to veer to-
ward Washington.

A communique threw little light
on the situation, merely declaring
there had been an unofficial exchange
of views on the allied debts.

It is understood Mr. Churchill set
forth the British standpoint that Great
Britain must receive from her de-
btors some equivalents to those she
must pay the United States.

The French finance minister re-
plied that the same attitude, hat
France could not force her debtors
while obliged to pay her creditors.

After that point, it appears the
conversation was easy in tone. It
grew more difficult when Clementel
began to place responsibility for the
diminution in reparations payments
France may expect from Germany.

Mr. Churchill observed it is declared
that the Dawes plan was freely ac-
cepted by all the allies as a necessary
measure to restore the economic situ-
ation.

Alabama's Crop
Progress Is Shown

(Associated Press)

WASHINGTON, Jan. 7.—The crop
and weather report of conditions in
Alabama for the week which ended
yesterday were summarized by the
department of agriculture today as
follows: temperature somewhat above
first half. Nearly normal remainder.
Rains general. Locally heavy at be-
ginning, but scattered light to mod-
erate thereafter. Farm work in most
sections retarded. Oats doing fair-
ly well. Planting progressing slowly.
Truck and vegetables doing well in
southern portions.

Youth, 17, Admits
Killing Mother

RICHARD SMITH

Richard Smith, seventeen-year-
old Philadelphia youth, has con-
fessed that he killed his mother,
Mrs. Mary Smith, fifty-seven, who
was found dead in bed with two
bullet wounds in her body, after a
New Year's Eve family party at her
home. Although he steadfastly de-
clined to say why he shot his sick
parent while the other members of
the family made merry on the floor
below, relatives say it was because
she refused his demand for \$50.

DEFICIENCY BILL IS
PASSED IN HOUSE

Three Million and Half
Provided To Finish
Wilson Dam Work

(Associated Press)

WASHINGTON, Jan. 7.—The house
today approved provisions of the war
department bill for maintenance of
the regular army at its present
strength of 12,000 officers and 119,
000 enlisted men.

WASHINGTON, Jan. 7.—Passage
of the interior department appropri-
ation bill has cleared the senate cal-
endar of the first of the dozen ap-
propriation bills which have been ac-
cumulating on the senate side through
the rapid fire stride of the house.

To make up ground lost in the long
fight over Muscle Shoals the senate
continued into all night session yester-
day to dispose of the interior bill.

The regular order of calendar Wed-
nesday was put aside in the house to-
day to resume consideration of the
war department appropriation bill,
which leaders hoped to bring to a fi-
nal vote before the weekend adjourn-
ment.

The bill carrying a total of \$331,
000,000 provides for maintenance of
the regular army at the present ap-
propriation maximum of 12,000 com-
missioned officers and 125,000 enlisted
men exclusive of the Philippine scouts.

The emergency bill, carrying \$157,
000,000 was passed by the house late
yesterday. The measure carries a
principal item of \$150,000,000 for re-
fund of taxes illegally collected and
another of \$7,000,000 for purchase of
the capital stock of the new inland
waterways corporation. Muscle
Shoals also receives \$3,500,000 in this
appropriation.

Demonstration Of
Culling Scheduled

A culling demonstration is to be
held at the poultry yard of P. A.
Hall, at the Alabama Water Com-
pany's pumping station in East Al-
bany, Friday afternoon at 1:30.

The demonstration is in charge of
Miss Clonts, who has been recognized
by the poultry department of the
state farm bureau and is an expert
in the poultry raising and breeding.

She will be assisted by Misses Burns
and Burnell who are also well known
poultry workers.

A culling demonstration was held
at the farm of L. W. Parker of Aus-
tinville shortly before Christmas
which was declared to have increased
the efficiency of his flock apprecia-
bly. A great deal of interest was
shown in the demonstration over a
hundred persons being present.

Miss Clonts and her helpers will be
in the county for the entire month
helping the farmers with their flocks
in the interests of better poultry and
their help is given without cost. Dur-
ing their stay here, they may be called
at the office of Turner Coal and Grain
company which is to be their head-
quarters.

CIVIC LEADERS TO
BE CHOSEN JAN. 16

Membership Meeting Is
Postponed by Unit
Until That Date

The scheduled meeting of the mem-
bership of the chamber of commerce
to have been held at the chamber
last evening was postponed until January 16, Friday at
7:30 o'clock. The meeting held last
night was not largely attended and
was proposed that the meeting on
the latter date be thrown open to the
public when plans will be discussed
for the movement during the coming
year, and the election of officers for
the ensuing year.

The chamber of commerce according
to all reports, has been one of the
most vital factors in the life of the
communities during the past year and
the public is looking forward to it's
playing a greater part during the
coming year. The organization since
the beginning of 1924 has been one of
the liveliest in the section and a great
many benefits have been gained lo-
cally through the extensive work that
has been carried on.

GERMANS PROTEST
HOLDING COLOGNE

(Associated Press)

PARIS, Jan. 7.—The German note in
reply to the allied communication on
the continued occupation of the Co-
logne area was received in Paris to-
day. It declares the action of the
allies is a reprisal and violates clauses
of the treaty of Versailles.

French official circles regard it
merely as a note of protest, which
does not call for a response.

It is thought likely that the allies
will allow the matter to stand as out-
lined by their note to Berlin, giving
notice of non-evacuation on January
10 until the final report of the mili-
tary control commission on arma-
ment conditions in Germany is at
hand.

Air Appropriation
Too Little, Weeks

(Associated Press)

WASHINGTON, Jan. 7.—Secretary
Weeks told the house committee in-
vestigating the air craft industry to-
day that the money allotted to the
army air service was inadequate to
maintain an efficient air service.

Although the approximately \$16,
000,000 recommended in the army bill
for next year, he said was the larg-
est sum ever allotted to the service,
it fell far short of the amount re-
quired.

He complimented the work of Ma-
jor General Patrick who is in charge
of the service.

STRESSES NORRIS
BILL PROVISIONS

Senator Underwood In
Sharp Denial Of the
Ransdell Charges

(Associated Press)

WASHINGTON, Jan. 7.—The sen-
ate will vote at four p. m. tomorrow
on the Underwood bill, the crux of
the Muscle Shoals leasing fight. An
agreement to that effect was reached
today between Senator Underwood
and Senator Norris. The agreement
subsequently was adopted by the sen-
ate.

Regardless of the result, action on
the Underwood substitute was re-
garded as presaging an early con-
clusion of the long drawn out discus-
sion regarding disposition of the
great Alabama project.

Under today's agreement general
debate will be closed at 3 p. m. to-
morrow the final hour being divided
between Senator's Underwood and
Norris. The conclusion argument
will be given to the Nebraska sena-
tor because of his status as head of
the committee in charge of the leg-
islation.

As soon as the agreement was
reached, Senator Underwood permit-
ted the temporary displacement of
his bill by the agriculture bill.

WASHINGTON, Jan. 7.—The al-
leged advantages of the Norris bill
for operating Muscle Shoals in its
provisions for flood control, was
stressed in the senate today by Sen-
ator Ransdell, democrat, Louisiana.

He read the sections of the mea-
sure sponsored by Senator Norris,
Republican Nebraska chairman of the
congressional committee which in-
structed the secretary of war to con-
struct dam number three and other
dams when practicable.

"I want to call the attention of
the senate especially to the consid-
eration under which the secretary
will act," he said, "first production
of power which will benefit every state
of power section. The requirements
of navigation and finally of flood
control. The Tennessee river with
many annual dangerous floods, is the
principal feeder for the Ohio and thus
for the Mississippi. Distribution of
the resulting power, estimated at 1-
000,000 horsepower, would inevitably
 rebound to the commercial and agri-
cultural benefit of Arkansas, Missis-
sippi, Louisiana and other southern states,"
Senator Ransdell insisted.

His declaration that the Under-
wood bill meant the leasing of Mus-
cle Shoals at four per cent of the cost
of certain portions brought a denial
from the author of that measure.

"The senator should say that a min-
imum of four per cent is set," said
Senator Underwood, "the president or
the secretary of war is free to get
as much more as he can."

Senator Ransdell replied "the min-
imum is always the maximum in these
cases."

"The four per cent rate would
amount actually to only one half per
cent on the total cost of the project
he added.

INITIAL LEADERSHIP LOOP FIGHT

The Albany High school cage squad and the Louisville and Nashville Y five tangle tonight in the first struggle of the season for the leadership of the local basketball circuit. Both teams showed exceptionally good form in the first battles of the year on last Monday when the two teams that battle for the top notch tonight won their first games. The Power-Roofing folks meet the Decatur high school in the first game tonight that is to be played at 7 o'clock sharp.

The Power-Roofing combination showed a lack of practice in the opening game on Monday and lost by a one sided score to the Y team while the Decatur high school bowed to the Purple of Albany high by another heavy score. Both clubs have the advantage of having played together for the first time and it is expected that the first game on tonight's card will be just as interesting and fast as the last.

Coach Grimes will probably use the same lineup that appeared on Monday representing the Decatur high school while there will possibly be little change in the front presented by the industrial combination.

Coach Webb will start his regular lineup against the Y. M. C. A. and should provide plenty of opposition for the Y Cagers. Johnson at forward and Hurst at center after one years experience on the court are showing up this year as the shining lights of the Albany offense while Perie at guard with Spencer form a defensive combination that is hard to break through.

The Y team will possibly be without the service of Hartselle at forward tonight and it has not yet been announced who will be the running mate of Roper who displayed no mean ability at tossing counters on Monday. Neal and Byers are still fighting it out for the center position with Ellison and Shelton working at the guards.

A good crowd greeted the opening of the loop on last Monday night and it is hoped that as good a crowd will be on hand to witness the second games of the tournament tonight.

Paavo Nurmi, the "Phantom Finn," displayed his usual form last night at Madison Square Garden and established a new world's record in the mile run against one of the best fields in the world. The Finn was content to remain in third place until the last lap of the mile journey. He then took the lead and finished a full ten yards ahead of Joie Ray, former holder of the world title for this event. Ray ran the greatest race of his life and also bettered his former record but he was never able to head the great Finn. Nurmi the most powerful runner in the world today, has been training

A THREE DAYS
COUGH IS YOUR
DANGER SIGNAL

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.—Advt.

IT DRIVES OUT WORMS

The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Sold by All good druggists.

BRIDGE COMPANY
HOLDS CONFERENCE

Any Suggestions From
State Commission
Will Be Met

At a meeting of the Limestone-Morgan Bridge company held this morning at the City National Bank, it was proposed by a representative of the Nashville Bridge company to let the original bid made of \$540,000 stand. This bid to stand on the cost plus basis gives the local company an opportunity to save on the original investment and cannot cost more than the original figure. This proposal was made following suggestions by the state highway commission on questions concerning the building of a bridge over the Tennessee river at this point. It was also decided that S. A. Lynne and John Patterson be sent to Montgomery at a later date to confer with state highway officials concerning their objections and to meet any suggestions that the commission might offer.

C. E. Frost, president of the company, presided at the meeting this morning with Tennis Tidwell, Lamar Penney, J. W. Wyker, S. A. Lynne, John Patterson and Clyde Hendrix in attendance. The main purpose of the meeting was the hearing of the new proposal made by the Nashville Bridge company which made the most satisfactory bid against the other competing companies when the organization first began the movement during the latter part of the fall to bridge the Tennessee near or at Albany-Decatur.

In speaking of the outlook Clyde Hendrix sounded a note of optimism and believed that the plan that has been followed thus far will be satisfactory to all concerned and that before a great many months have

passed that the bridge will stand one of the greatest achievements the development of the industrial-agricultural life of the community. The entire cost of the building was placed at \$650,000. In everything that must necessarily come into the carrying out such a project. It is stated that \$1,000 of the total amount is to be paid while the remaining \$350,000 be sold as stock as soon as all preparatory measures are worked out.

Freezing weather prevails in California.

Announcement is made that W. B. Shackelford, after a service of 30 years with the First National Bank, will retire to become cashier of a new \$250,000 banking institution.

The box office at the Delta theatre was robbed of some cash and tickets by burglars who had broken open a lock last night.

Officers and directors of the Decatur Ice and Coal Company were elected as follows: J. D. Jervis, president and manager; E. H. Allison, secretary; S. W. Rhodes, cashier and W. B. Shackelford, treasurer. Directors: L. M. Falk, C. C. Harris, J. D. Jervis, E. H. Allison, W. R. Spight, H. B. Beard and C. B. Lawrence

Margaret Anglin appeared here last night in "Green Stockings."
Mr. and Mrs. W. A. Vantress entertained last night at their home on Fifth avenue.

At a meeting of the stockholders of the Commercial Savings Bank and Trust Company, all the officers were re-elected except Dr. B. W. Watson, who was succeeded by J. S. Patterson.

Mrs. Nellie Ross became governor of Wyoming Monday. She is the first woman to be elevated to the governorship of the state.

The plight of J. W. Taylor, Pratt City man, whose feet were frozen when he tried to walk home for Christmas, has aroused the sympathy of the entire state.

"Hughes regards Paris debt note as hopeful sign," says an Age Herald headline. Hope seems to be the only thing America has gotten out of the debt squabble.

"I am going to study this cross-word puzzle," said the office fan, as he picked up a copy of the Congressional Record.

Speaking of cross-word puzzles. With puzzles making their appearance on ladies' hosiery, what will become of the horizontal words?

Women may or may not raise the level of politics, but bobbed hair has certainly put a crimp on the old style barbershop conversations.

Isn't it queer how much difference a new suit makes in a man, a new hat in a woman, and a paved street in a neighborhood?

In our opinion the widest difference in the whole English language, between any three words, is that between "enclosed find check" and "please remit."

If your goods are worth recommending privately to those who come into personal contact with, aren't they good enough to be advertised to the whole trading community?

The farmer who has just obtained riches may not have made it out of oil discovered on his land. He may have gotten rich from the sale of sparking space on some shady lane.

Here's a paragraph from the Tuscaloosa News which in our opinion, just about takes the prize for cleverness: "The question now, says the Detroit News, is whether Charley Dawes really needs any outside assistance in getting himself sworn into office?" No question about that He's already sworn himself in."

While Mrs. Ross was inaugurated governor of Wyoming last Monday, establishing a precedent for women in America, an Associated Press dispatch from London calls attention to the fact that no industry in Great Britain now appears safe from invasion by women. Britain has a working army of some 17,177,050, based on figures compiled in 1921. Of this total about 5,065,33 were women. There are more women than men in some professional occupations, the dispatch says, adding: Women own factories, manage them and supervise them. They are plumbers, riveters, safe-makers, sand-blasters, gunsmiths, farmers, electricians, electrical apparatus makers, undertakers, chimney sweeps, lighthouse and light-

ship hands, bookmakers, race-horse trainers and jockeys, aviators, brewers, cellar "men," railway station masters, railway workers, farm managers, railway porters and trackmen, barge workers, stevedores, street singers, fisherwomen, coal and shale mine workers, builders, bricklayers, glaziers, tile makers, brick and pottery makers, metal workers, dynamo motor attendants, locomotive engineers, and textile workers. But, of the 156,283 persons employed as dynamo motor attendants and stationary engine drivers, only two are women.

YOUNGER GENERATION TO SEEK
CORRECTION OF ELDERS' MORALS

Ernest Bruce, a young writer, is accredited in dispatches from New York with proposing the organization of one million college under-graduates into a kind of "little brother" movement to seek to do something for the correction of the morals of the older generation.

Mr. Bruce may merely be seeking a way to obtain some worthwhile publicity, or he may really be actuated by the highest motives. At least his plan is unique and, in advance of a try-out, who is there to say whether or not it will accomplish any good.

The dispatches announce that Mr. Bruce has convinced himself that "all this talk about the youth of today going riotously to the bow-wows while the middle-aged look on prayerfully and helplessly is entirely wrong."

"College men are much better than their seniors," he asserts. "We feel that if the republic is to be conserved, we must begin to watch our aunts and uncles."

The originator of the new movement apparently has not yet lost his youthful enthusiasm, but when he attempts to arrest the social currents of the day, he is taking upon himself a task of tremendous proportions. He is attempting to stop a current so swift, so strong that better men than he have failed to dam it.

His "movement" likely will go the way most of its predecessors have, but Bruce offers a plan with so many quaint angles, its originality in itself will win interested watchers if nothing more.

BREVITY FEATURE OF INAUGURAL
ADDRESS OF FIRST WOMAN GOVERNOR

Mrs. Nellie Ross, of Wyoming, has answered the question "What must a woman say when she is elected to office." Mrs. Ross' inaugural address, upon assuming the duties as the chief executive of Wyoming, was brief, simple and direct. Mrs. Ross addressed the assemblage merely as "my friends," and thus is history made:

"Owing to the tragic and unprecedented circumstances which surround my induction into office, I have felt it not only unnecessary, but inappropriate for me to now enter into such discussion of policies as usually constitutes an inaugural address.

"This occasion does not mark the beginning of a new administration but rather the resumption of that which was inaugurated in this chamber two years ago. It is well understood I am sure that it is my purpose to continue as I am convinced it is the desire of my state, that I should insofar as changing conditions will permit the program and policies then launched.

"I avail myself of this opportunity to acknowledge the gracious consideration shown me by Governor Lucas during the period he served as executive of our state and to say that I look forward confidently to that same degree of co-operation with him and with other state officers and with the legislature, that during my husband's term lightened for him the burdens of official life and contributed to his satisfaction and joy in service.

"In approaching the responsibilities of this exalted office I do so with a profound sense of the high obligation it imposes upon me. That the people of Wyoming should have placed such trust in me—in a large measure—I feel an expression of their recognition my husband's devotion to their interests and of his contribution to the progress of the state, calls forth in this solemn hour my deepest gratitude and challenges me to rise to opportunities for service thus made possible and to dedicate to the task before me every faculty of mind and body with which I may be endowed.

"Such dedication I now offer to my state, relying upon divine help for strength and guidance."

CONGRESSMEN TREMBLE WHILE THE
DIVORCE TRIAL REVELATIONS GO ON

The life of a congressman of the United States is anything but a pleasant existence in these troublesome days. The Scott divorce trial in Michigan, wherein evidence of capital gaiety has been plentiful, is said to have many congressmen trembling with fear that something may be said about them, during the trial; something which the "folks back home" may not understand.

Washington inhabitants, official and unofficial, appear to have been living their own lives as they pleased, and naturally it isn't pleasant to thus have the spotlight of publicity turned suddenly upon them. It must be nearly as fearful as being suddenly called to the door in the lead of night and informed your house is on fire.

A few months ago and Washington was enjoying life (we almost said quietly enjoying life, but it would seem quietude wasn't one of the things a fairly large section of the city was enjoying). Then, like a bombshell, the Scott divorce suit full "ker-plunk" right in the heart of the city, and people have been scurrying for dug-outs ever since.

Quick to josh a fellowman, the American people have been having quite a good time at the expense of congress during the past few days. Accustomed to having congress watch them squirm under pressure of actual and threatened legislation, the public has gotten no little thrill out of watching congress, in its turn now, doing the squirming, but after all, as the Selma Times-Journal points out, congress is really but "an average cross section of the population of the country and has in its membership just about the average of men who will resist temptation and who will not resist it."

The Journal adds: "Public opinion in the Senate and House is no more critical of the turpitude involved in taking an illegal drink, or in arranging to have liquor on hand when it is wanted, than is public opinion among the same class of citizens back home. The conditions of affairs is not flattering to the citizenship of the country but nothing is to be gained by denying that it exists. Congress and official life at Washington is not asaturnali of gilded vice and dissipation. That point may be well understood. The fellows who are church members at home will be very apt to spend their Sabbaths around places of edifying worship at Washington; others will golf on Sunday and live generally the life to which they are accustomed. The rich members occupy mansions and play cards for big stakes and the poor fellows live in boarding houses and small hotels and take their wives to bridge parties where they can play for a quarter of a cent. Any kind of authentic measuring rod would show that congress has a personal moral standard about as high as any other miscellaneous body of respectable American citizens whose duties and interests throw them together."

KING ACTS TO HALT ROYAL ROMANCE

MISS POPPY BARING & PRINCE GEORGE

Prince George, one of the younger sons of the British rulers, known as the "Naval Prince," is facing a protracted cruise on a British warship in Chinese waters, ordered there by King George. Prince George's friendship for Miss Poppy Baring, daughter of Sir Godfrey and Lady Baring, of Nubia House, Cowes, is reported in London society to be concerning his parents very much. To frustrate a possible engagement, he has been ordered to sea in the hope of ending the romance.

COWCATCHER SAVES WOMAN IN WRECK

MRS. MARY CLARK & BILLY HARTMAN

Mrs. Mary Clark, of Indianapolis, was carried along, semi-conscious, for twelve miles on the cowcatcher of an express train after the locomotive had rammed an automobile in which she was riding. Her presence of mind in seizing the iron rods saved her life. She suffered only from exposure as a result of her horror-ride. One woman was killed in the smashup, but baby Billy Hartman miraculously escaped with a few bruises.

Dangerous Coughs Go Quickly With Old-Time Pine-Tar Honey

Perhaps the best remedy ever discovered for a persistent cough that has hung on and on, and which may develop into a more serious condition, is that old-time tried and proved medicine that our parents and grandparents relied on—Dr. Bell's Pine-Tar Honey. The prompt relief is almost magical, and a day's use will often break up a bad cough or chest cold entirely. Doctors say the pine tar quickly loosens and removes the phlegm and congestion which are the direct cause of the cough, also healing soreness, while the honey both soothes irritation and gives a pleasant taste. But be sure you get the genuine and original Dr. Bell's Pine-Tar Honey, and no other. There have been many imitations, but the original is still the best, as it is scientifically compounded of just the right proportions of pine tar, honey and other healing ingredients which the best doctors have found to aid in quick relief. For coughs, chest colds, bronchitis and almost every other throat irritation, including children's spasmodic croup. Often stops a severe cough overnight. Dr. Bell's is only 30c at any good drugstore.

Clears Complexion

"Oh! how clear and beautiful your complexion is today, my dear!"

THERE is a certain joy—a certain pride—in knowing you are admired, whether it be from father, brother, husband or sweetheart! And back of that joy is the satisfaction of knowing all is well.

Men are fascinated by the charms of beauty. Women gaze with envy, secretly jealous, perhaps, wondering—hoping—praying for that attractiveness which is not theirs. But why the wondering—the hoping—the praying for that clear skin—that beauty. A clear skin—is the barometer of one's condition. A healthy skin radiates beauty. Pure, clean blood means a clear skin.

S.S.S. is waiting to help you. It will rid your blood of its impurities and give you that clear complexion. Since 1826 S.S.S. has been ridding people of blood impurities, from pimples, from blackheads, boils, eczema and from rheumatism, too. Because S.S.S. is made from fresh herbs and barks, it may be taken with perfect safety. Try it yourself. You will not only look better, but you will feel better, too.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by All Good Druggists.

For expert workmanship, efficient delivery and complete satisfaction in the job line call Albany 46. Our representative will call and fill your needs in business supplies, circulars, or posters.

Moulton News

Miss Lydia Tidwell supervisor of elementary schools in Lawrence county is attending a conference of school supervisors of the counties in the Florence Normal district of Russellville. The supervisors on Monday under the guidance of Miss Darius Osborne supervisor of schools in Franklin county and W. A. McRay county superintendent of education visited rural schools near Russellville. The conference is directly under the leadership of Miss Mary D. Pierce of the state department of education. Miss Tidwell on her return from the conference will visit the county schools along the railroad in the valley.

Dr. J. R. Robertson presiding elder of the Decatur district preached at the local Methodist church Sunday at eleven o'clock and at the evening service to large and appreciative audiences. Quarterly conference was held at the church in the afternoon.

Men interested met last week and organized a council of the Junior Order of American Mechanics. It is said that a membership of thirty has been secured for the order which at one time was quite flourishing at this place.

Mrs. Charles C. Nance of Mount Hope, teacher at County line school attended the conference of farm and home workers at Auburn last week and has returned now to her school.

Calvin Weatherwax of Cedar Rapids, Iowa, is visiting his brother E. F. Weatherwax and family.

Little Clayton Sandlin, eight year old son of J. M. Sandlin, Jr., is very ill at the home of his aunt, Mrs. Charles Wölker with whom he lives. A trained nurse was secured Sunday and at this writing the little fellow seems improving. The boy is such a likeable little fellow that all are interested in him.

ORDERS CLEAN-UP IN SCHENECTADY, N. Y.

Above: JAMES FLANNAGAN & MAYOR W. W. CAMPBELL. Below: JAMES W. RYNEK & CAPT. ALBERT YOUNG.

Taking a cue from Philadelphia, Mayor William W. Campbell has begun a spectacular clean-up in Schenectady, N. Y., following the murder of Acting Police Captain Albert Youmans, head of the Vice Squad, slain from ambush with a sawed-off shotgun. The murder was in reprisal for his activities against organized vice in Schenectady's underworld. Arthur Springer, an engineer, was stabbed to death a few minutes before when he went to the rescue of two girls accosted on the streets. Mayor Campbell's first act was to demand the resignation of Police Chief James W. Rynex, who has controlled the Schenectady police force for forty years, and to order Detective James Flannagan to clean up the city and to shoot to kill if necessary.

AMUSEMENTS

George Fitzmaurice, celebrated director, who has selected thousands of movie types, has this to say in reply to a query as to what constitutes an A-1 flapper.

"To give my description of what constitutes the ideal flapper I will describe Constance Bennett, playing the part of the flapper in 'Cythera,' the Goddess of Love and whom I consider the perfect type.

"In the first place, she must be very young and pretend to be much older. She must be very pretty. Bobbed hair is of course, essential. She cannot be too tall and yet must carry herself gracefully."

Alabama Leghorn Holds First Place

AUBURN, ALA., January 7.—Special—A pen of ten white leghorn hens owned by F. A. Rew, Carrollton, Alabama, held first place at the end of the ninth week of the national egg laying contest or demonstration in progress here, according to an official report made by John E. Ivey, head of the poultry department.

Another pen of the same breed Lawrence county, held second place, owned by W. J. Hagood, Town Creek. The ten hens belonging to Rew had laid 340 eggs in nine weeks, and those belonging to Hagood had laid 319 eggs.

Third place was held by The Happy Poultry Yards of Memphis, Tenn., the fourth by the Great Southern Poultry Farm at Lineville, and Mrs. Alice T. Peart, of Loxley, Baldwin county, held fifth place.

The five highest pens are white leghorns, and the sixth is a pen of buff orpingtons owned by Judge Sam High of Ashville.

In his report Mr. Ivey called attention to the fact that production the ninth week was almost exactly that of the eighth week, despite the fact that rain fell every day and the hens were kept in houses all the time.

There are 96 pens of 10 each in the contest, and at the end of the ninth week they had laid 15,584 eggs. Production during the ninth week was 2,569 eggs.

A report from a similar contest in New York states reveals that the Alabama hens are out laying those in New York by a ratio of two to one.

Safe Fat Reduction

Why be fat? The answer of most fat people is that constant dieting is hard, continual exercise is tiresome and exhaustive—and then, too, it might be harmful to force the weight down. That was the old-fashioned idea. Today in Marmola Prescription Tablet all these difficulties are overcome. Just a pleasant little tablet after each meal and at bedtime causes fat to vanish. This modern method is easy, entails no dieting or exercising and has the added advantage of cheapness.

Get a box of these tablets and start taking them now. Within a short time you will be getting rid of fat steadily and easily without starvation diet or tiresome exercise. You will be comfortable and able to enjoy the food you like and want. Even after taking off many pounds, there will be no flabbiness or wrinkles remaining. You will feel 100 per cent better. All drug stores the world over sell Marmola Prescription Tablets at one dollar for a box, or the Marmola Company, General Motors Building, Detroit, Mich., will gladly send them to you on receipt of the price.—Advt.

A New Coach

Recognizing the demand for a truly comfortable and economical car of the coach type, Dodge Brothers have provided it.

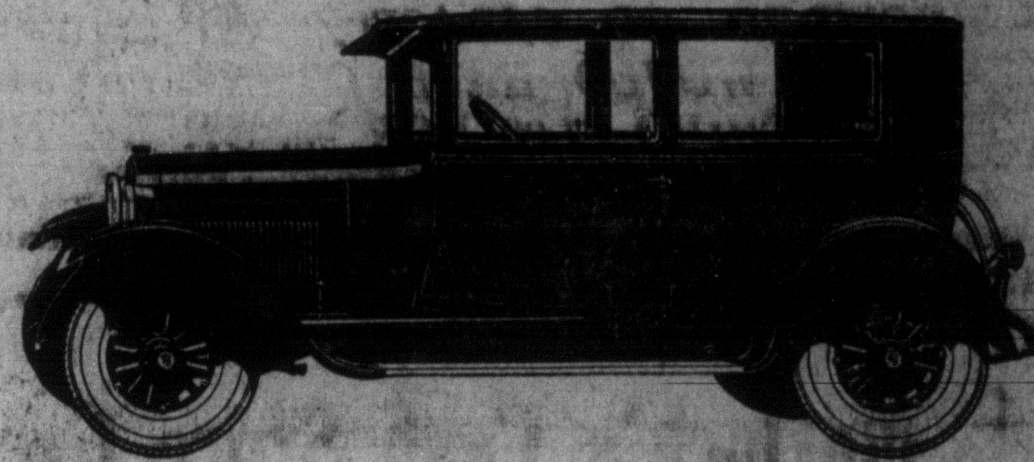

The new Coach reveals a characteristic maturity of design—in the low-swung lines of the body, in the arrangement of the interior for five-passenger comfort, and in the exceptional dimensions of the doors and windows.

The car is lacquer finished in Dodge Brothers blue with a body stripe of cartouche yellow. Fittings and fixtures are first quality throughout, and balloon tires are standard equipment.

So far as riding comfort and dependability are concerned, it is only necessary to add that the Coach is built on Dodge Brothers sturdy chassis and cushioned by Dodge Brothers underslung springs.

COLDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga. (Adv.)

A GOOD LAXATIVE

Black-Draught Recommended by an Illinois Lady, Who Says It Helps Her.—"Fine for the Liver."

St. Elmo, Ill.—"I have used Black-Draught for three years," says Mrs. J. W. Boyd, a well-known member of this community. "I was visiting a friend who had used it for some time. I was in need of a laxative and I had a burning in my stomach. I was constipated. She gave me a dose of Black-Draught and it helped me, so I used it from then on. It certainly benefited me. I think it is fine for the liver, too. I am glad to recommend it. One day our pastor was visiting us, and he said his system seemed clogged and asked me to give him something to take. I gave him Black-Draught. He was much pleased with the results and bought a package, himself."

Constipation forces the system to absorb poisons that should be thrown out, causing pain, discomfort and tending to undermine your health. Black-Draught helps to relieve this condition by acting on the bowels, and by regulating the liver when it is torpid, thus helping to drive out many poisons in an easy, natural way.

Don't take chances! At the first indication of constipation, take Black-Draught. Cost: only a cent a dose. Your local druggist, or dealer, sells Black-Draught. NC-158

the "Lost and Found" department of a local express company. They were sent here to become a part of the valuables of a circus company, but the circus went to pieces before they arrived and they were left unclaimed in the express office, eventually to be turned over to the tender mercies of a bowery saloon keeper. Egypt's kings, maybe, guarding over near-bee bottles.

Statistics are pretty cold things, but sometimes they hold a lot of interest buried in their figures. For instance, the bureau of vocational training here in New York has discovered that there are more women sculptors in the country than actresses, which I don't believe many of us would have expected nearly fifteen thousand sculptresses and something over thirteen thousand ladies on the stage. Then there is some surprise to me, at least, in the news that 187,853 women in the country own farms and 770 of them manage farms for other people. There are only two forest rangers, but when one considers the work and life of a forest ranger, two seem a good many to be women.

Arthur Richman proved with "Ambush" that he could write plays and Margalo Gilmore has proved more than once that she could act in them, but "The Far Cry" which has just been put on at the Cort Theater awoke us to the heretofore unrealized genius of both of them. Mr. Richman has written a story of a family of American expatriates living in Paris and pretty nearly going under. With same insistence on truth in detail as well as general sweep which he showed in his irretrievably mangled earlier play, he demonstrates an insight into people and situations which well might be envied by more famous playwrights. Miss Gilmore as the reckless daughter rises to a depth of ability even beyond her promise of the past few seasons. She becomes a splendid actress instead of an attractive one. The only unfortunate thing in the production is that the able and enjoyable Lucille Watson has so few minutes on the stage. She scores in those few minutes but that could never be enough to satisfy us.

If a person just will get drunk there is undoubtedly some satisfaction.
